---

# Problem

- Medical checkups during lockdown
  - Checkups outside of work hours
- Patience's ability to visit clinic
- Accessibility problems
- Doctor's availability
- Emergency

# Solution

- Online platform for fast medical check ups
- We bring doctor to your home at anytime with a click
- More access to more doctors in with quicker time

---

# Doctor

- Patients will enter their personal details and symptoms for a booking
- A booking request will be made where information will be displayed whilst the request is being processed
- The first available doctor will be recommended for booking
- Information will be stored in the database
  - Recommendations for patients
  - Machine Learning/Algorithms for best fit
  - Can recommend further in-person checkups

***medicare***

## Business Model

- Will be subsidised by the Australian Government
  - Bulk-billing
  - Medicare Number
  - Insurance (for foreigners)
- Initially have small support from the Department of Health
- More support given as less medical centres/clinics are required to be built and maintained
- More access to more doctors nationally with potential to expand overseas

# Technology
